How many voters are there in Ohio and Pennsylvania? We think that is a point important to be ascertained. By the census of 1860, there were in Ohio 1,171,272 white males. him from a direct attack via Fredericksburg About two-fifths of these are over twenty-one, which gives 468,080. In Pennsylvania there were, in 1860, 1,427,946 white males. This age. In this State there were 474,211 white and was followed by Gen. Hooker. mel s in 1860; over twenty-one 188,682, which is a near approximation to the number reported by the Auditor.

Now for the voting in 1860, when the census was taken showing these results. Ohio voted 442,441, Pennsylvania 476,442, Kentucky about 146,000. We have not the full vote of Ohio from those reported, the returns will foot up about a fifth greater than the vote of 1869, and nearly up to the whole number of white males over twenty-one, notwith tanding the soldiers who are absent, and the allowance that must sick or absent from home, or without the residence in their districts the time required. We should like, as a matter of curiosity, to know Republicans could get up any number to order, perhaps. The other side ought to learn the art, for it is important in elections. We don't charge frauds; only miracles. The widow's cruise of oil produced wonderfully, and why should not Republican votes be multiplied the same way? The more soldiers they send to the field the more votes they can poll. The more taken away, the more there is left. These Republicans have changed the Constitution, upset dictionaries, and now they change the arithmetics. Kentucky polled only a little over eighty thousand votes at the 'fairest election' ever held-little over half that she polied in 1860-whilst these neighwar, poll twenty per cent, more. Can't some one multiply our vote to two hundred thousand, so as to keep pace with these loyal should then have no more need of volunteering or drafting. When a draft is ordered, we trust the Government will look at these votes, and regard the meager vote of this State, until we can learn this Republican art of multiplying voters. What was gained in Kentucky by suppressing the vote on one side was accomplished by multiplying the votes on the other elsewhere. The latter is the better plan. It has a better appearance. It looks like a free election-very free.

A Richmond paper has given notice of the terms of peace the Writer & Co. will ac. cept, and here they are:

We do not think we have exaggerated the demand of these radicals. It will be seen that the two sides are very much slike, and about as near a settlement as they will be at the end of this century. The radicals are publishing these terms with a gusto, to show that there is no chance of peace, to offset all that Democrats say about the possibility of compromise, They don't see that their own programme is as ridiculously extravagant as those of the

Enquirer. The whole world sees that there can be no settlement between these extremes. One need not parade the extravagant terms of the other. The rebels publish radical effusions about what must be done, and parade them before the South as the ultia atum the North requires, to stimulate to still more desperate resistance. Each is a monster in the diana, a difficulty occurred between a white eyes of the other, which it is a high duty to

No one has ever doubted that he won the batbe made for those not naturalized, or who are the of Shiloh by pushing forward his advance columns to aid Grant. He overcame Bragg at Perryvllle; but he, successful, was superseded just as McClellan, successful, was superseded how many votes these States can poll—the and just as Burnside and Hooker were super-

Rosecrans, whose career had been of such brilliant and unvaried success as to command the respect and admiration of his opponents. He of all the other Generals had been pitted against the ablest Generals of the rebellion, and had never met with a failure. He had maneuvered with Lee in Western Virginia and beaten him. He routed Van Dorn at Corinth and Iuka. He defeated Bragg at Stone river. These were terrible battles, involving not only loss of life, but the highest strategic genius of a General. With the defeats of Antietam and Gettysburg resting on his shoulders, Davis still sustains and defends Lee. With the defeats of Perryville and Stone river, he never wavers in the support of Bragg. The difference may be that one commander is a scholar and a soldier, earnest even in his errors; the other is a President of a party and a politician, sincere but doubtful of himself.

REPCHER'S CHRISTIANITY -To the Editor of the London Times: I have read your excellent comments on the address of the Rev. Henry Ward Beecher, delivered recently at Glasgow. In order to expose to your readers the inconsistency of that "war Christian," the following extracts from his speech at Newhaven, Conn., in 1856, are furnished:

"The people will not levy war, nor inaugu rate a revolution, even to relieve Kansas, until they have first tried what they can do by voting. If this peaceful remedy should fail to be applied this year, then the people will count the cost wisely and decide for themselves boldly and firmly which is the better way-to

boldly and firmly which is the better way—to rise in arms and throw off a Government worse than that of old King George, or endure it another four years, and then vote again.

"The Constitution is the cause of every division which this vexed question of slavery has ever occasioned in this country. It has been the fountain and father of all our troubles, by attempting to hold together as reconciled two opposing principles, which will not harmonize nor agree. The only hope of the slave is over the ruins of the Government and of the American Church. The dissolution of the Union is the abolition of slavery." Union is the abolition of slavery."

In the same speech this amiable brother of Mrs. Harriet Beecher Stowe said that a Sharp's

gressive war we would not have the same old story repeated on this side of the water, and be indignant; but what will they do about it?

For the Louisville Democrat. National Repentance.

In all excited controversies between large bodies of men, it seldom happens that either of the contending parties is entirely without blame. Such may be the case in the present civil war between the North and the South It may be that both of the parties are in some important respects in the wrong. Let us see how the matter stands.

The conduct of the South in this great

extreme. A considerable number of her most active and influential men in every State have for many years entertained the fell design of severing the Union; they have continually labored to stir up jealousy, hatred and discord between the people of the two sections; and they have not scrupled to employ any means, however disnorable, to accomplish their designs. Southern statesmen and politicians plotted and intrigued to produce a hopeless division in the Democratic party, and thus to destroy its power of electing a President, and to cause election of a man to that office who was arally odious and repulsive in the highest degree to the Southern mind; and they were successful in accomplishing their infao the hands of a sectional party, en most of the Southern States courage in the field in leading a corps, he was found to be utterly confused as a commander in a general engagement. So he was quietly hung up for further use.

General Buell, as Department commander, had achieved the most brilliant success. None contained in these mem rible words: "The very idea of the cow and the proposition to the wise and the entire fathers; and thus they disregarded the counsel of Washington contained in these mem rible words: "The very idea of the cow and the right of the recolle to idea of the rower and the right of the people to establish Government, presupposes the duty of every individual to obey the established Government;" and "all obstructions to the execution of the laws-all combinations and associations, under whatever plausible character, with the real design to direct, control, counteract, or awe the regular deliberation and action of the constituted authorities, are destructive to this fundamental principle, and of fatal tendency." In thus consenting to the kindling of the flames of civil war, they are in a large measure responsible for the financial embarrassments of the Federal Government, the immense destruction and consumption of property attendant upon the progress of the war, and the vast sacrifice of the lives of their fellow-citizens by the contending forces, with the griefs and miseries which are entailed upon the kindred and dependents of the slain.
The diplomacy of the pretended Confederacy which those States have formed has been of such a character as clearly to endanger the satety and permanency of republican isstitutions on our American continent; and thus they have incurred the guilt of treason not only to the Government of their fathers, but to the principles of American liberty. The North also is far from being without

blame. Its conduct towards the South was for many years of the most uncharitable, med and irritating description; and in very many instances the inspiring motive of individuals was the desire to destroy the Union. This conduct at length reached its crisis in the formation of a sectional party (in the face of the counsels and warnings of Washington against such combinations) and the ection of sectional candidates for the Pre idency and Vice Presidency, who stood upon the platform of excluding the South from a fair and equal enjoyment of the Territories Then, when the choice of peace or war was in their power, they blindly and obstinately chose war rather than yield a partisan and sec-tional advantage. The war thus chosen they have waged with the same sectional and partisan spirit. Its apparent ruling motive has been the degradation of the South, the ag-grandizement of the North and the maintenance and perpetuation of the power of the Re publican party. The design which underlies the whole war policy of the North, as directed and molded by its official agents, is the per-manent dissolution of the Union as the result manent dissolution of the Union as the result of the bloody and disastrous tragedy. The political proscription and tyranny, the fraudulent and delusive paper money bubble, and the unequal and oppressive military conscription, all have in view the same consummation. to embreil us in the controversies and wars of the European continent, and to set in mo tion a train of influences which may help to ensure the ultimate dissolution of the Union. Both sections are also guilty of having lost that public spirit and patriotism which were so illustrious in our ancestors, and of having become imbued and overmastered by a pre-prevailing spirit of selfishness and corruption. Politics has become a mere trade, and a method of preying upon the public, rather than a field for the exercise of the powers of States-manship and the virtues of patriotism. The animus of the contest of sections is in a great degree determined by this mournful fact. These things are true of the North and the

If, then, it be indeed the fact that both of the parties to this terrible quarrel are materially and grossly in the wrong, they have each great and urgent need of repentance. They need to take a deliberate and careful survey of the history of the country for more than a quarter of a century past, and to compare their conduct with the great standard of social duty furnished by the maxim of doing as they would be done by. Would that they might take such a survey, and, shutting out all the influences of sectional prejudices and party pessions, might seek to know what teachings of conscience, and what must be the judgment of the wise and holy Judge of Mations! Then they would see wherein they have erred, and would repent as

wherein they have erred, and would repent as in dust and ashes!

Will the people of the North and of the South eyer be brought thus to acknowledge their faults, and generously confess them, and seek each other's forgiveness? We firmly believe that they will. There is in each of them enough of latent generosity and nobleness of soul. Though they are now in a high degree under the spur and spell of passion, yet there are symptoms of returning reason, and of the revival of the power of conscience and affec-tion. In the South there are able men who have lately taken courage to write and publish elaborate arguments to show that the conduct of the South has been, in some of its parts, passionate, hasly and urjustifiable; and in the North there are thousands of cool-headed men, who are beginning to discriminate clearly in regard to the moral position of their section, and who do not hesitate to say that the North is not entirely in the right. They do not, by any means, excuse or justify the South, but they have done saying or thinking that the North is altogether without blame. It is the North is altogether without blame. It is easonable to think that these views, as the passions of men, become cool, will spread throughout the North and the South, and their high duty to their fellow-citizens, to their country and to mankind.

their country and to mankind.

Were our sainted Washington still among the living, and still an interested observer, from his hallowed abode on the shores of the Potomac, of the progress of events in the country whose foundations he laid, it cannot for a moment be believed that he would sym at the ruthless efforts put forth to destroy the what General has not?

OUR COVENANT GOD! Thou hast been our man and a negro, the latter literally cutting the white man to pieces. The quarrel grew out of a discussion on the slavery question, The negro fled, but was shortly after found near by, dead, with two bullet-holes in his head.

The Frankfort Commonwealth says:
"We may as well tell Mr. Stanton that he cannot recruit negroes in Kentucky; the people and the authorities will not permit it. The unconditional Union men and the authorities will never submit to the outrage."

The President has anubbed the radicals of Missouri decidedly. They will, of course, be indiguant; but what will they do about it?

REFUGEES FROM MONTGOMERY COUNTY, KY. There arrived at the Clifton House night be-fore last a mother and six children, refugees from Montgomery county, Ky. As the house was full they would have had to seek other quarters had not Maj. Ridenour kindly surrendered the use of his room. Yesterday morning Capt. Meade and Robt. We learn from the lady, Mrs. Martha Robert, that her husband was killed about a year ago by guerrillas, and that ever since she has suffered annoyance and insult from similar parties. About two weeks ago a gang of villains, with their faces painted and otherwise disguised, under the leadership of the notorious John T. Williams, made their appearance at the farm of Mrs. Robert, in the vicinity of Mt. Some of the rascals proposed to kill her on the spot, but finally concluded to give her three days to leave the neighborhood, which she did upon the ensuing day. Mrs. Robert represents the whole county as being in a state of anarch and confusion, the mountains filled with refu-gees, and none feeling sure of life from day to day. She is anxious to meet relatives of her husband, two of whom, Sanderson and Virginia Robert, reside in the vicinity of our city.—[Cincinnati Gazette, 24th.

The Paris Citizen furnishes the particlars of the capture and death of the notorious John Keller. The capture was made by a detachment of the Seventy-first Indiana mounted infantry, on Saturday night, near Sharpsburg.

On Thursday night Keller and his gang were in Flat Rock, and robbed Mr. Alexander Evans of about \$400, Mr. Wm. Watkins of \$350 and a horse, Mr. Lewis Earlywine of \$180 and all his wife's jewelry. While taking the flag down in Flat Rock Keller told Watkins that he was the man who killed Wileman, and that he had come to kill him, but as he was a pretty clever fellow he would not do it this time; but said if ever another Union flag was put up in Flat Rock he would kill him and Evans. The soldiers who made the capture, not being acquainted with the country, took with them Mr. Wm. Fox, of Flat Rock who, it is thought, was mainly instrumental in securing success. The prisoners were taken to Mt. Sterling on Sunday morning, and while under guard, in the provost marshal's office, we are told, Mr. Watkins, late a member of the winth Kentucky cavalry, stepped in and shot Keller twice, who died from the effects of the wounds on Monday night. on Saturday night, that a loaded train bound for Stevenson and an empty one coming toward that city, on the Nashville and Chattanooga railroad, were captured at Decherd, on Friday evening, by some of Wheeler's rebel cavalry. The rumor futher alleged that the loaded train contained amongst its freight a number of pieces of artillery. The cars were destroyed, and the locomotives-two of the best on the road-rendered unserviceable. It was also stated that a portion of the track was torn up. The rumor lacks confirmation.

The following Kentucky soldiers, wounded at Farmington, were admitted into the hospital at Shelbyville, Tenn., on the 221: Edward Hughes, company A, Second Kentucky cavalry; Elias Heigh, company D, Seventh Ker ucky cavalry. The following rebel Kentuck, soldiers were received at the same hospital, having been wounded at Farmington: L. V. W. Hunter, company F, First Kentucky; W. Kalis, company F, Second Kentucky; Jao. W. The weather continues rainy, and we may safely conclude that within a week a considerable portion of the within a week a considerable portion of the live million bushels of coal waiting a favorable stage of water, will be on its way to Cincinnati and other points below. There is a sufficient rise now for the shipment of coal from Pomeroy and other intermediate points, and, if we are not misinformed, coal barges are already on their way to the city, loaded to their fullest capacity. By the first or middle of next week the danger of a coal famine will have passed.—[Cinciunati Commercial, 24th.

Friday's train from Nashville to Bridgeport was attacked by a party of guerrillas about three miles from Tullahoma. The rebels had removed several rails, and as the train ran off the track some thirty or forty shots were fired into it. Two or three of the guards were wounded, and Capt. Sly, of the First Michigan Engineers, had both of his legs broken by the concussion of the ears.

WOOD FOR THE POOR .- Mayor Caven has Wood for the Poor.—Mayor Caven has been making an effort to get the railroads gentering in this city to furnish the wood ordered by the Council to be purchased for the poor of the city. A DREADFUL AFFAIR. - Dr. Montgomery has A DREADFUL AFFAIR.—Dr. Montgomery has given us the following particulars of a dreadful occurrence which took place near Olena, in this ccunty, on Friday last. It appears that a man living there owned a pet bear, which was chained to a post. Some dhildren were in the habit of tossing chips at the animal for the purpose of irritating it. On Friday they were at their accustomed sport, when the bear, becoming furious, broke his chain and took after the boys. A little fellow about eight years old, the nephew of the owner of the bear, was caught by the infuriated arimal and dreadfully mangled, so that he died shortly afterwards. The mother of the child ran to his relief, and was cobsiderably scratched, when the owner of the bear came and stunned him by a blow from a crowbar. ives of thousands of our soldiers.

LOUISVILLE, KY., June 3, 1863.

We, the undersigned, have seen the good effects produced by the use of Dr. John Bull's Cedron Bitters in eases of general debility and prostration of the system and believe its general use would prevent disease and elieve much suffering. Among our soldiers particulary would this be the case, especially those who are exposed to miasmatic influences in the Southern climate.

WASHINGTOM, Oct. 26. The following is a summary statement of the amount of the crops of 1862 and 1863, both summer and fall, of the loyal States, as returned to, and estimated by the agricultural deportment, and furnished to the press generally, by the commissioner of agriculture in advance of his monthly report for September:

The answers returned to the circulars for September, of the agricultural department. September, of the agricultural department, asking information of the condition of the crops, are given in tenths above or below the crop of 1862. During the summer the department made an estimate of the amount of the crops of 1862. This estimate was based upon the census returns of 1860. As the crop of 1859, which was taken by the census, was below an average and that of 1862 much crop of 1859, which was taken by the census, was below an average, and that of 1862 much above it, allowance was made for this difference, varying in its amount according as the agriculture of each State required. The general per cent. Increase of each State was added. One-fourth of the amount given in the census was struck off from the returns for Missouri and Kentucky on account of the war. Thus calculated, the crops of 1862 were made the basis for estimating those of 1863, according to the tenths increase or decrease according to the tenths increase or decreas

according to the tenths increase or decrease of each State, as reported by the correspond-ents of the department.

The snmmer crops of wheat, rye, barley and oats for 1862 and 1863 are as follows: Wheat, Bush ls, Bushels, Bushe

*Increase, †Decrease, †456,669 †1,020, 67 *2,327,170 The fall crops of corn, buckwheat and potatoes for 1862 and 1863 are as follows:

Corn. Buckwheat. Potatoe Bushels. Bushels. Bushels. .586,704,474 18,722,995 113,533,118 .449,163,894 17,198,233 97,270,035 ..137,540,580 1,529,762 15.663,083 The monthly report of the department for eptember shows that the amount of wheat and flour exported to all countries for the year ending September 1, 1863, is 40,686,308 bush-els, and of corn 11,680,343 bushels. The do-mestic consumption, then, is as follows:

Wheat crop for 1862... .149,305,192 .586,70 . 474 . 1 . 6-0,342 These exports and domestic consumption exhibit the relative magnitude of the foreign

and domestic markets. and domestic markets.

The report examines the probable foreign demand for breadstuffs during 1864, and shows that the principal portion of our exports of breadstuffs are purchased in the English markets; that the average annual importations of all grains with Great Britain and Ireland are 4278 494 American bushels, but in 1860 the all grains with Great Britain and Ireland are 94,278,949 American bushels, but in 1860 the importation was 135,386,434 American bushels, and in 1861 142,529,106 American bushels; that it was as great in 1862, but not so large in 1863; that from the present condition of the crops in England the demand for 1864 would return to the general average rather than to the great amount since 1860; that the home demand for 1864 would be at least equal to that for 1863, and that the condition of the currency would remain as favorable as it now currency would remain as favorable as it now for 1864 would be as follows:

41,761,047 dorn crop for 1863 . Leaving a deficiency of....

Which must be provided for by greater economy in feeding and a greater proportional consumption of wheat. The number of stock hogs is about the same as in 1862, and about five per cent. below a general average in condition. These were early turned on the frosted corn. The backwheat crop is not as much injured as was generally supposed, because most of it is produced in the States of New York, New Jersey and Pennsylvania, where the trosts of August 30th and September 18th did

not injure the crops materially.

The tobacco crop of 1863 is larger than that of last year by nearly fity millions of pounds, although the frosts in the Western States were very injurious to it. But about one-half the crop there had been gathered before the trost of September 18, and seventy-five per cent, more ground had been planted than in

1862.
The hay crop of 1862 is estimated at 21,603,645 tuns; that of 1863 at 19,980,482 tuns; a
decrease of 1,623,163 tuns. Its quality is good.
The meteorological division of the report is
much longer than usual, giving a full descripion of the frosts August 30 and September 18. The monthly report for September is much the best yet issued, and will soon be

CINCINNATI, October 26. General Rosecrans arrived here about 11 o'clock this morning, and was escorted to the Burnet House by an immense crowd of citizens. He was enthusiastically welcomed throughout the entire line of march. Judge Storer introduced him to the assemblage, and said his fellow-citizens of Cincinnati would at preciate the work he had accomplished for his country, and assured him of their unshaken confidence. While he has never dishonored his State, the State has never forgotten him. Alluding to his removal from the Army of the Cumberland, he said the propile would require the records upon which the

would require the records upon which that action was based.

General Rosecrans returned thanks for the General Rosecrans returned thanks for the expression of sympathy and respect which this public reception implied. While he felt flattered by it, he could not forget that the heart of the people does not go out to individuals alone. It is ine principle for which we are contending, the struggle of national life, that produces such assemblies. He asked the people never to forget their duly to the Governments. Whatever might occur to individuals the question as to how he had been used, he desired to leave for future time to answer some friends of mine in New York, he said, are very solicitous about my health. The are very solisitious about my health. The army of the Cumberland thinks I am well enough and so do I. As for the quantity of opium I have taken, consult my druggist.

The New York and Washington papers have said that Generals Crittenden and McCook intended to make charges against me. They

said that Generals Crittenden and McCook intended to make charges against me. They have assured me that they regret exceedingly that such false reperts should be started. He said since the battle of Chickamauga he had received a letter from the President, approving his action in that affir, and said whatever charges appeared agalast him in Eastern papers, he was satisfied the government was in no way responsible for them. He expressed himself ready to perform whatever duty the government required of him.

At the conclusion of his speech, cheers were given for Rosecrans and the Army of the Cumberland.

Gen. Rosecruns' welcome throughout was earnest and hearty. CAIRO, October 26. The Memphis Bulletin of the 24th says that on the 21st instant, the advance of the Union forces, eastward from Corinth, met with reon the 21st instead, the advance of the Union forces, eastward from Corinth, met with resistance at Cherokee station, eight or nine miles from Tuscumbia. Gen. Osterhaus was in the advance. He had not moved far when he encountered two brigades of rebel cavalry under Generals Lae and Forrest, estimated at from four to six thousand. The fight lasted four hours, when the rebels were driven back with severe loss. Our loss was seven killed and thirty-seven wounded, most of which was caused by mistaking Lee's cavalry, who were dressed in our blue overcoats, far our forces. The rebels are said to have very strong fortifications one mile this side of Tuscumb'a on the railroad,

Prisoners report the enemy expect to make stout resistance there. They say they had four thousand men there Tuesday, and reinforcements of a thousand cavalry and two thousand more were hourly expected from Bregg.

WASHINGTON, October 26. The Navy Department has received infor-mation that the steamship DeSoto, during the latter part of October, when in the Southwest pass, received information that a steamer had been boarded by a band of rebels and carried

out of the river. After a run of thirty-five miles she was captured and proved to be the Leviathan. She is new, is a very fast screw steamer, and was amply supplied with coal and provisions for a cruise. She had a crew of riched and of picked men.

Capt. Walker says he feels great satisfaction in announcing this success, for when the Boston, a much inferior vessel, was carried off by the rebels some months since, we soon fell upon her track and thus had the opportunity of witnessing the desolation she spread in her path, blackening the seas in her wake with

swelling, with two feet nine inches water in the

canal last evening by the mark. During the forty-

eight hours ending at dark last evening, the river rentes closed at 67f@20c. at the head of the Falls, had swollen nine inches. The weather was clear and pleasant. At Cinninnati yesterday afternoon the river was rising, having swollen seventeen inches in the previous tweaty four hours, with five feet eight nches water in the channel hence to this place. The river at Pittsburg yesterday at noon was lowly swelling with three feet five inches water in the channel by the pier mark. As both the Monongehala and alleghaney are falling, the rise in the Ohio at P.ttsburg, will not be sufficient to

allow bu little coal to be floated out. The rise has been sufficient to allow some of the regular Pittsburg packets to resume their trips. The Lower Ohio from the late rains has great ly improved, and a number of boats laid up, will be enabled to resume their trips. The rise at Portland during the past forty-eight hours, has been fully three feet, which with the rise from the different tributaries emptying into the Ohio hence to Cai o, will cause considerable of a rise.

At last accounts the Cumberland and Tennessee rivers were both rising, with sufficient water for SHIRTS, all navigable purposes.

on the principal bars out to Evansville. The Ferryboat Lady Washington struck a rock or some other obstruction, on Friday night, opposite the Cincinnati wharf, while coming down the river from the Fulton dry dock, which knocked a considerably sized hole in her hull, causing the boat te fill rapidly, and when she reached a point a few hundred yards below, the Scott street ferry landing, on the Kentucky shore, sunk in about hree or four feet watdr. The Pekin arrived at Memphis on the 19th. Ter

miles above, she picked up a snag which entered the first room opposite the pantry, tore out three rooms, and went through the roof.

The Charleston Courter makes a timely sug-estion in recommending the attention of our Government to the naturalization and cultivation of Calisaya for the presrvation of the health of our soldiers. This article has a peculiar effect upon the liver, and guards the system apecular effect upon to liver, and guards the system against disease by exposure and irre-ular diet. It is said that the great success of the Plantation litters of Dr. Drake, which, previous to our unhappy difficulties, was found in most Southern homes, was owing to the extract of Calisaya Bark, which it contained as one of its principal ingredients. "In confirmation of this, we have heard one of our most distinguished physicians-remark, that whenever he felt unwell from ordinary dietetic or atmospheric causes, he invariably relieved imself by Plantation Bitters. Now hat these Bitters cannot be obtained, a substitute should be prepared. We understand that our Government has opened negotiations with Dr. Drake, through a secret agent, but with

its remembrance of "Auld Lang Syne," but we can assure "Our Government" that the Plantation Bitters are not for sale to any "secret agents," North or South There is probably several other things that "Our Government" will yet want. We know that we have the best and most popular nedicine in the world. We are not afraid to show what

it is composed of.
Physicians are compelled to recommend it. Calisava Bark has been celebrated for over two hun dred years, and was sold during the reign of Louis XVI, King of France, for the enormous price of its own weight in silver. It is remarkable for Dyspepsia, Ferers, Weakness, Constipation, &c.

All the profits are divided on the mutual system every five years among the members insured.

The business of this Company is conducted exclusively on the Cash plan. No notes whatever are received for premiums, or paid back on claims f.r losses. The accumulations or dividends may be applied to inc ease the amount insured under the policy, or in an annual deduction from the premium. In the first instance, many cases are no record where the amounts originally insured have been more than doubled by the accumulations or dividends, and in the second, the annual reduction granted by the Company is LARGER THAN THE ANULIPERMICH; in either words, that the policy has been entirely paid up for the original amount, and the policy holder, instead of paying any premium to the Company, is actually in receiving of an annutity (to be still further increased by future dividends), amounting to several hundred dollars, for the remainder of life.

COMPOUND

The Latest and Most Important Discovery of the 19th Century.

NO MAN'S NAME IS MORE INTIMATELY CONnected with the history of the Materia Medica of the United States, or more favorably known as a pioneer in medical discovery, than that of Dr. JOHN BULL, of Louisville, Ry. His himitable preparation of Sarsaparills, has long stood at the head of the various compounds of that valuable drug. His Compront Preparation of that valuable drug. His Compront Preparation of the twest and South; and his Worm Lozenges, in less than a year after their introduction attained a reputation as wide-spread as the continent of North America. But the crowning slory of his life remains to be attained in his latest discovery, or rather combination, for he does not claim to have been the discoverer of CEDRON, which is she basis of the bitters into offered the state of Car. That bonor belongs to the native have been known for more chanced to the control of the state of of the sta Pittsburg to Philadelphia,

FARE TO ALL POINTS AS LOW AS ANY ROUTE as Aseries of experiments in which Dr. Bull has been for years engaged, has just been brought to a successful termination, and he is now enabled to offer to the public a combination of Cedron with other approved tonics, the whole preserved in the best quality of copper-distilled Bourbon whisky, which he is confident has no equal in the world. He might turnish a volume of certificates, but the public have long since learned to estimate such things at their true value. The safest plan is, for every one to test for himself the virtues of a new medicine. Give the SLEEPING CARS ON NIGHT TRAINS TO Philadelphia, New York & Baltimore.
